

1. Buka link nodeJs : [Node.js — Run JavaScript Everywhere](https://nodejs.org/en)
2. Download versi LTS(Long Term Support).

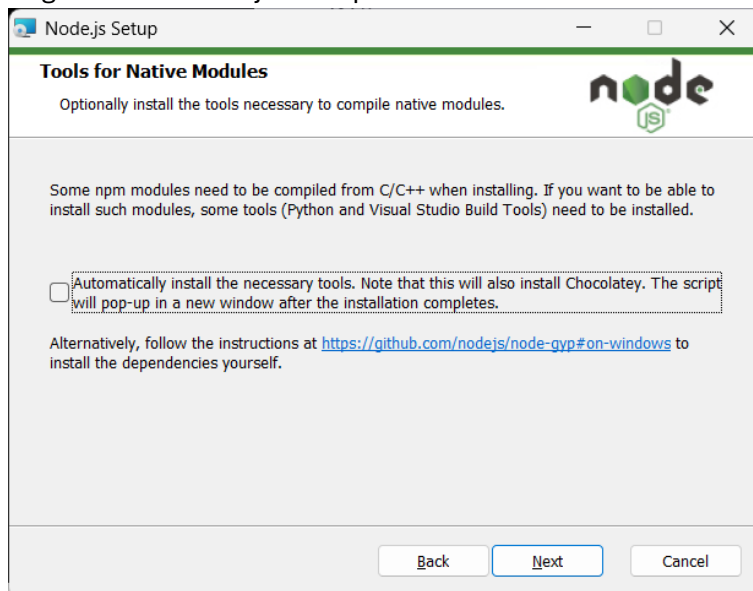

3. Silahkan install dan pilih next sampai muncul bagian destination folder, untuk windows silahkan pilih destinasi selain program files.

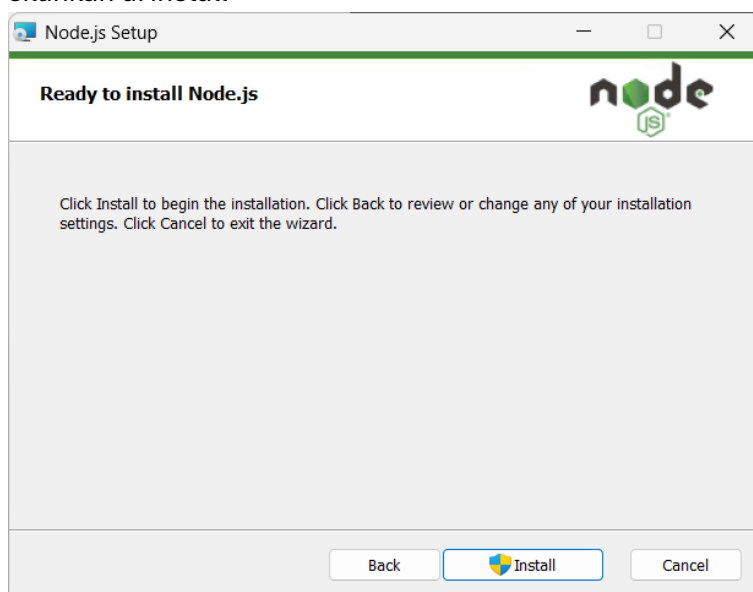

4. Cek bagian Add to path sudah apakah sesuai gambar dibawah.

5. Bagian ini di next saja tidak perlu di ceklist.

6. silahkan di install

7. Cek NodeJs

A screenshot of a Windows Command Prompt window. The title bar at the top reads "Command Prompt" and includes standard window controls (minimize, maximize, close). The window content shows the following text: "Microsoft Windows [Version 10.0.26100.3194]" followed by "(c) Microsoft Corporation. All rights reserved." on the next line. The prompt "C:\Users\M S I>" is followed by the command "node --version". The output "v22.14.0" is displayed on the next line. The prompt "C:\Users\M S I>" is shown again on the following line, with a cursor at the end.

```
Microsoft Windows [Version 10.0.26100.3194]
(c) Microsoft Corporation. All rights reserved.

C:\Users\M S I>node --version
v22.14.0

C:\Users\M S I>
```
